

Paola Gutiérrez

FULL-STACK SOFTWARE ENGINEER

I **build software where engineering meets creativity**. Full-Stack Software Engineer with 5+ years of experience turning ideas and complex requirements into production-ready web products across e-commerce, hospitality, gaming, and business platforms. I work across **React, Next.js, TypeScript, Node.js, REST APIs, databases, and AWS**, combining strong engineering fundamentals with an instinct for thoughtful, intuitive experiences. I also use AI-assisted development tools such as **Claude, Cursor, and Codex** to explore ideas, solve problems, and move from concept to production faster.

SELECTED PROJECTS

Proofs & Trials — Full-Stack Platform

[React](#) · [TypeScript](#) · [Node.js](#) · [AWS](#)

Built a full-stack certification platform with a public certificate verification portal and authenticated administrative dashboard. Developed backend APIs, authentication, document management workflows, and AWS-based storage and database infrastructure

Layout Alemán — Freelance Project

[SvelteKit](#) · [CMS](#) · [JavaScript](#) · [Firebase](#)

Designed and developed a custom bilingual website with an integrated CMS, enabling administrators to manage content, publish projects, update website information, and handle customer inquiries through automated email notifications

EXPERIENCE

Software Developer — Just Some Coding LTD

[REMOTE](#) · [MALTA](#) | [JAN 2023](#) — [PRESENT](#)

- Built and maintained production web applications across e-commerce, hospitality, and gaming, working with **TypeScript, Svelte, Angular, Node.js, and REST APIs**.
- Led the **migration** of a pharmacy e-commerce platform from Angular to Svelte, modernizing its architecture and rebuilding core shopping and authentication flows.
- Developed booking and operations platforms supporting **130+** properties, including availability, reservations, payments, authentication, and dynamic application features.
- Collaborated across frontend and backend systems to integrate APIs, external services, databases, and business-critical workflows.

Programmer — INEGI

[REMOTE](#) · [AGUASCALIENTES, MEXICO](#) | [MAR 2022](#) — [DEC 2022](#)

- Developed internal data platforms and reporting tools using **JavaScript, Java, and SQL**, supporting access and analysis of large statistical datasets.
- Designed complex **SQL** queries across databases containing millions of records, improving data retrieval, reporting, and export workflows.

CORE TECHNOLOGIES

Frontend

[React](#) · [Next.js](#) · [TypeScript](#) · [Svelte/SvelteKit](#) · [Angular](#)

Backend

[Node.js](#) · [Express](#) · [REST APIs](#) · [Authentication](#) · [JWT](#)

Cloud & Data

[AWS](#) · [S3](#) · [DynamoDB](#) · [MySQL](#) · [MongoDB](#) · [Firebase](#)

AI-Assisted Development

[Claude](#) · [Cursor](#) · [OpenAI Codex](#) · [AI coding & agent workflows](#)

Tools

[Git](#) · [GitHub](#) · [Vercel](#) · [Netlify](#)

LANGUAGES

[Spanish](#) — [Native](#)

[English](#) — [Professional \(C1\)](#)

EDUCATION

Computer Science Engineer

UNIVERSIDAD AUTÓNOMA DE AGUASCALIENTES
2017–2021

Junior Developer — Tekoestudio

HYBRID · AGUASCALIENTES, MEXICO | JUL 2019 – FEB 2022

- Delivered 7+ custom web applications using **JavaScript, Vue.js, Angular, PHP, SQL, and WordPress/headless CMS.**
- Worked across requirements, development, deployment, maintenance, and client collaboration.
